Nazar Hulymchuk

Frontend Engineer

SUMMARY

- 1.5+ years of experience in the Information Technology industry;
- Experience in front-end development (JavaScript, Angular, React);
 - Experience with server-side JavaScript (Node.js, Express);
 - Some experience in database design (SQL);
 - Experience in development of REST API;
 - Understanding how cloud infrastructure work(AWS);

SKILLS

- HTML
- CSS
- Javascript
- Typescript
- Angular
- React
- Node.js
- Express
- SQL
- Git
- **English(B1)**

EXPERIENCE

Reenbit, Lviv – Frontend engineer

1 yr June 2022 – present

I had the opportunity to work on a healthcare product called designery.de, which simplifies the creation of websites for various institutions, including hospitals. The product also integrates with different social media platforms and collects analytics data about these websites. What's more, it provides a wide range of customization options for customers.

Our team consisted of five people:

- Two front-end developers
- One back-end developer
- One project manager
- One team lead experienced in full-stack development

Key technologies I used to work with:

- Angular (with TypeScript)
- Vanilla CSS (with SCSS)
- Angular Material library
- NgRx for state management
- Cypress for testing
- Git as version control system.

Reenbit, Lviv – *Trainee Frontend engineer*

3 mth April 2022 – June 2022

I gained foundational experience in building front-end web applications using Angular and TypeScript. I became proficient in using key Angular concepts such as components, modules, services, and routing, and leveraged tools like the Angular CLI and RxJS. Additionally, I successfully integrated the Angular Material library to build and customize user interface components. I collaborated with my team using Git for version control and learned how to write unit tests using Jasmine and Karma. Overall, I developed the skills and knowledge required to build functional and scalable web applications using Angular.

EDUCATION

Lviv Polytechnic National University – *Bachelor*

2016 – 2019

CERTIFICATIONS

FreeCodeCamp Relational Database

<https://www.freecodecamp.org/certification/404th/relational-database-v8>

freeCodeCamp(🔥)

Issued
May 21, 2023

This certifies that
Nazar Hulymchuk
has successfully completed
the freeCodeCamp.org
Relational Database

Developer Certification,
representing approximately
300 hours of coursework.

Quincy Larson
Executive Director,
freeCodeCamp.org
